

### Comparison between Affordable IVF and Full Service IVF at Fertility Solutions

| Service  | Full Service IVF with Fertility Solutions Sunshine Coast | Lower Cost IVF with Affordable IVF |
|--|--|------------------------------------|
| After hours initial consultation with a nurse (after 5pm)  | ✓  |                                    |
| Initial Skype consultation with nurse  | ✓  | ✓                                  |
| Initial Skype consultation with a fertility specialist   | ✓  |                                    |
| Your own Fertility Specialist who plans your treatment, egg collection & embryo transfer procedures  | ✓  |                                    |
| Your fertility specialist will perform your monitoring scans when you are in treatment.  | ✓  |                                    |
| Consistency of primary treating nurse and scientist who will work with you to ensure continuity of care. With the same scientist being present at your egg collection and embryo transfer will be a priority | ✓  |                                    |
| Access to a weekend on call nurse for any urgent concerns  | ✓  | ✓                                  |
| Treatments are timed & numbers of egg collections are capped on a weekly basis   |  | ✓                                  |
| Choice of when you want to have treatment (i.e. school holidays for teachers)  | ✓  |                                    |
| Can have appointments at any of our clinic sites, Buderim or Bundaberg   | ✓  |                                    |
| Choice with days & times for appointments & scans.   | ✓  |                                    |
| Flexible appointments i.e. 7.30am before work or 4.30pm after work   | ✓  |                                    |
| Various IVF cycle treatment options aimed at tailoring cycle to your specific needs  | ✓  |                                    |
| Gap payment for treatment at egg collection procedure rather than at medication collection (3-4 weeks prior to egg collection procedure)   | ✓  |                                    |
| Egg collection procedure performed under a light anaesthetic (some clinics only offer light sedation with patients being awake during egg collection procedure)  | ✓  | ✓                                  |
| Intra Uterine Insemination Treatments available  | ✓  |                                    |
| MESA (operative sperm retrieval) Procedures available  | ✓  |                                    |
| IVF/ICSI treatments available  | ✓  | ✓                                  |
| IVF/ICSI using fresh or frozen MESA sperm available  | ✓  |                                    |
| Fresh extended culture with blastocyst transfers available   | ✓  |                                    |
| Frozen Embryo Transfer treatments available  | ✓  |                                    |
| Treatments requiring the use of donor sperm, eggs or embryos available   | ✓  |                                    |
| Semen analysis appointments flexible and can be arranged for a Saturday (by appointment only)  | ✓  |                                    |
| If cycle unsuccessful you will be placed on a waiting list for a new cycle.  |  | ✓                                  |
| If requiring a Frozen Embryo Transfer minimal waiting time to see a fertility specialist for treatment planning  | ✓  |                                    |

As you can see by the above table the **benefits** of choosing **full-service IVF at Fertility Solutions** are many however, the choice of treatments and services is yours.
